In *limit*, there is freedom; in *freedom*, limit. Even the wildest of rivers creates itself the boundaries of the bed that order its flow.

THE SQUARE OF FALSE RATIONALITY

Inside the Square, discussion is neat and orderly. Clean—almost. This is because Truth and a whole angry horde of assumption-threatening details are kept systematically at bay, far beyond the walls of the Square.

Inside the Square, discussion will continue until the unavoidable moment arrives when an avalanche of contradictions breaks down the walls;

Or, alternatively, until we step firmly, and resolutely—

out of the Square.

Nature knows no *contradiction, no conflict,* no *waste.*A religious or spiritual life, therefore, has nothing to do with scripture, or belief, or "gods" of any name or kind, but rather is simply

the deeply held intention to live a life without:—

IMAGE: **sonogram** of a **wolf tone** on a cello, natural model of what happens when two tones "speak against," or **contra-dict** each other. In acoustics, this offers a striking and singular example of incipient confict in uniquely human terms—that is, a contradiction held indefinitely without resolution by our thought and thinking—but now in the physical world.

contradiction, conflict, or waste.

Without clear limits, the worst and most brutish of our natural tendencies shall come to rule the many roads that run between us.

The Internet & Worldwide Web are the great and revolutionary common ground of the 21st century. Open, free access—both free of charge, and free from arbitrary restriction—should be guaranteed constitutionally, and paid for in the same way as the roads are paid for pictured here.

WHO OWNS THE SCALES OF CREATION?

We shape the world and the world shapes us. **GMO**'s are to Life what **Corporate Finance** is to Natural Wealth:—but a front for the control of natural resources by a very few, paid for by the exploitation and persistent poverty of the many, but now expanded to include the whole circle of creation. Patenting the 'building blocks' of Life is like copyrighting the notes of the **C** major scale. It's wrong. It's anti-democractic;. It's potentially, slavery by other means.

Since the beginnings of *Time* and *Money*, war, and the preparations for war, have always been the primary source of government debt.

First, the Devil's banker created the hook of compound interest.

Then, he baited the hook with promises of unlimited loans for *Death* and *Destruction*.

He's been making a killing, ever since.

Deficit wasting? All agree that spending more than we earn is a bad thing. Why then allow wasting more than we clean up? Who shall deal with the **debt of alien artifacts** we leave behind?

HANFORD—This is being written 220 km Southeast and downwind of the so-called Hanford Superfund Site. On the great Columbia River, it's one of the largest areas of nuclear contamination anywhere in the world. While still in use, HANFORD produced the plutonium for 60,000 weapons, leaving 200,000 m3 of waste in its wake. Plutonium, named for the God of Hell, is the most deadly substance known to man. But 1,000,000 of a gram—a microgram—is thought to be enough to cause lung cancer; it remains dangerous for at least a 1/4 of a million years. Verily, at HANFORD, we bear witness to the water which can never be cleaned, and the fire which can never be put out.
